Rosa Ramirez Carlson's passion for exploring new places began in her native Peru and led her to Santa Fe, NM, where her determination sparked a career as a travel agent. This journey inspired her to create Journeys International Inc. a company dedicated to turning dreams of travel into unforgettable, life-changing experiences.

A Journey Through Time and Culture

No other country in the world is as colorful and hospitable as Guatemala. Color is everywhere, from lush green foliage and tranquil blue lakes to the multicolored costumes of the inhabitants. We begin in **GUATEMALA CITY**, locally known as Guate, the capital and largest city of Guatemala, and the most populous urban area in Central America. The city is nestled in a mountain valley called Valle de la Ermita.

Tikal

We will travel to the heart of the Guatemalan rainforest to explore the crown jewel of the Mayan world, the Archeological Site of **TIKAL**, where the Maya raised their pyramids to the sky. Because of its geographical location Tikal was a major trading city. Though considered to be of the Classic Period, from 200 to 900 AD, construction began in 900 BC. The superbly designed city of Tikal was inhabited for a thousand years. **ANTIGUA**, among the oldest and most beautiful cities in the Americas. Founded in 1543, it was for 200 years the capital of an area that is now Central America and the Mexican state of Chiapas and was, along with Lima and Mexico City, one of the three great capitals of the Americas. Surrounded by valleys, **CHICHICASTENANGO** has always been an important market town. We will visit on a Sunday, its big colorful market day, where local villagers also worship the Catholic saints and their ancient gods at the Church of Santo Tomas.

PANAJACHEL is the main center of this region, located on the shores of LAKE ATITLÁN, one of the most beautiful lakes in the world. It is the hub from where we will visit the market town of **SOLALÁ** and the villages of **SAN ANTONIO PALOPÓ** and **SANTIAGO ATITLÁN**. These villages are predominantly quiet agricultural communities,

rich in indigenous culture and the residents are proud, independent, and conservative people. Most women and many men wear traditional dress, which varies from town to town, and nearly everyone speaks one of two Mayan languages (Tzutujil to the south and Cakchiquel to the north).
